PROFESSIONAL EXPERIENCE

An experienced and effective frontend developer with over 2 years of experience as a Frontend Developer, I specialize in crafting responsive user interfaces and optimizing web performance. I collaborate seamlessly with cross-functional teams, including designers and product managers, to deliver outstanding UI/UX. Passionate about creating visually appealing and user-friendly web applications. Strong problem-solving skills and a commitment to staying up-to-date with industry trends. Proficient in Git control and GitHub. Notably, I've successfully completed 20+ projects, consistently achieving high user satisfaction and improving page load times by 20%. My commitment to continual learning ensures I stay updated with emerging technologies.

WORK EXPERIENCE

Freelance Web Developer

Frontend Developer

Oct 2022 – Present

- Boosted the Average Time on Page by optimizing website images and code using ReactJS, React Hooks (useEffect, props), and state management libraries like Redux, resulting in more efficient rendering.
- Managed project timelines, communicated with clients, and ensured customer satisfaction.
- Translated design concepts into responsive and interactive web experience.
- Worked with various clients to create custom websites and web applications.
- Utilized CSS frameworks like Bootstrap, Tailwind CSS, and Materialize, aligning with responsive grid layouts, Flexbox, and CSS Grid for consistent cross-browser styling..
